
mySchedule Manager Guide - Annual Vacation - Assigning Approver Access

Introduction

The Annual Vacation module on mySchedule allows Managers to define which members of their management team will be able to approve vacation requests for each group of employees.

What is an Approver?

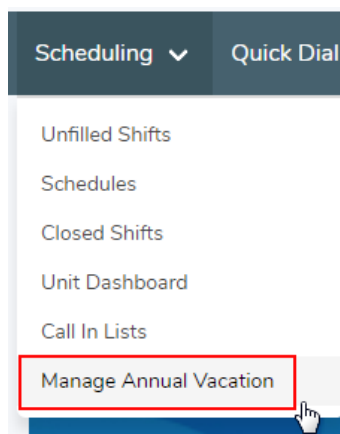

- Approvers can access the vacation group, process requests, and enter applications on behalf of employees
 - An Approver cannot assign other approvers, edit vacation groups, or edit quotas
 - Employees can be assigned Approver access without having Manager access
-

Accessing the Annual Vacation Module

1. Login to myschedule.northernhealth.ca with your Northern Health user account.
2. Click on the **Scheduling** menu item located in the top left of the screen
